Waypoint Analytics board authorizes sale process — LOI exclusivity closes in 14 days

RISK 88/100 — HIGH

Apex Capital's board member receives a confidential text at 6:44 PM: Waypoint Analytics has authorized a formal sale process. Their strategic fit score with Apex has been pre-modeled at 94%. Three other strategic buyers — including a known competitor — have already been contacted. Exclusivity goes to the first credible LOI. In the old model, assembling the deal team, running a financial model, and clearing legal conflicts takes three weeks. The window closes in 14 days.

Strategic Triggers

12 MIN

Full Execution Cycle

OLD MODEL

"Bolted AI onto the old model"

- ✗ Faster notes from the same slow meetings
- ✗ No readiness architecture before triggers fire
- ✗ Authority unclear when pressure arrives

VAUGHNMARTIN

"Rebuilt the operating model"

- ✓ Response pre-staged before trigger fires
- ✓ AI monitors. Executives authorize. Teams execute.
- ✓ Governance and auditability built into execution

Signal detected → Protocol activates → Executive authorizes → 12 minutes

✓ Complete in 12 minutes — 30 days compressed

Protocol Builder

The structure of all 170 protocols. Your organization's specifics.

- Protocol Identity
- Executive Owners
- Task Sequence
- Communication Chain
- Budget Envelope
- Decision Authority
- Review & Save

WHY THIS MATTERS

Protocol Identity

Name the trigger. Define the context.

Step 1 of 6

COMPLETE BEFORE CONTINUING

- Protocol name is required
- Strategic domain is required
- Trigger condition is required (be specific – vague triggers create hesitation)

QUICK-START TEMPLATES or build from scratch below

Critical Cyber Event

Ransomware - SIEM alert - enterprise systems

CRITICAL Technology

Regulatory Inquiry

SEC - FTC - DOJ - civil investigative demand

HIGH Regulatory

Supply Chain Shock

Critical supplier failure - production stoppage

HIGH Risk

PROTOCOL NAME *

e.g., Ransomware Response – Enterprise Systems

STRATEGIC DOMAIN *

Select domain

TRIGGER CONDITION *

Readiness is not overhead. It is value protection.

- Founding Partner: \$75K / 90-day validation
- Growth tiers: \$75K–\$250K annually
- If one strategic window is preserved, readiness can pay for itself quickly

The cost of delay is usually higher than the cost of readiness.

BUILT. LIVE. IN PRODUCTION.

Not a roadmap — operating now

THE 12-MINUTE EXECUTION CHAIN

The response is ready
before the trigger fires.

While competitors spend 30 days figuring out who needs to be in the room, every task is pre-staged, every stakeholder is mapped, every budget authority is pre-approved. Watch exactly how 12 minutes replaces 30 days.

This is the animated walkthrough – watch the chain execute. Want to run the scenario yourself? Try the Interactive 12-Minute Test Drive

EXECUTION COMPLETE

PRE-STAGED PROTOCOL, STAKEHOLDERS, AUTHORITY, AND TASKS READY BEFORE PRESSURE.

AI monitors. Executives authorize. Teams execute.

170 protocols · 221 triggers · 248 data points · refreshed every 15 minutes

09 / 12

AI capability is accelerating faster than enterprise readiness.

- Organizations can detect more than ever, but still mobilize too slowly.
- Governance and execution readiness are now the competitive bottleneck.
- The winners will pair AI sensing with governed execution speed.

Sources: Stanford HAI AI Index 2026 · Gartner Autonomous Business

Twelve founding partners. One defining cohort.

Partners who want readiness as competitive advantage.

PROGRAM	Founding Partner · 90-Day Validation
COMMERCIAL	\$75K / 90 days
COHORT	12 startup to Fortune 500 organizations
RAISE	Open strategic raise · active conversations underway

THREE LINES. THAT'S THE PITCH.

PROBLEM

Enterprises detect more signals, but still mobilize too slowly.

SOLUTION

VaughnMartin pre-stages response so executives authorize in minutes.

OUTCOME

Earlier detection + faster execution protects value before the window closes.
