

Video Production Scripts

Six videos · Full scripts with scene direction, on-screen copy, B-roll notes, and production guidance · July 2026

PRODUCTION NOTES: All six videos share the same brand system: navy (#0A0F2E), gold (#C9A84C), teal (#2B8A6E), off-white (#F4F1EC). Cormorant Garamond for headline text. Barlow for body. No purple. No AI-powered language. Every video ends with vaughnmartin.com or the specific CTA route noted.

VIDEO 1 — THE CUSTOMER VIDEO

Title: "The Cost of 30 Days" · Length: 60 seconds · Format: No talking head. Text on screen + sound design.

Audience: CEOs, CFOs, COOs, CROs at organizations \$50M+

Emotional arc: Recognition → The gap named → The contrast revealed → Fearlessness

Where it lives: Homepage hero (vaughnmartin.com), LinkedIn video post, email prospecting

SCENE 1 [0:00–0:08] COLD OPEN — NO LOGO. NO MUSIC.

VISUAL: Pure black screen. Monospace white counter in center: \$0.00 ticking upward. Sound: single tick, then silence.

ON SCREEN: "\$0"

DIRECTION: Counter begins: \$0 → \$47,000 → \$183,000 → \$504,000 — climbing steadily. No music. Just the tick.

SCENE 2 [0:08–0:14] THE QUESTION

VISUAL: Counter freezes. Screen holds for two beats.

ON SCREEN: "This is what the last 8 seconds cost you."

DIRECTION: White text on black. No animation. Holds for 3 full seconds before cutting.

SCENE 3 [0:14–0:22] THE SITUATION

VISUAL: Rapid-cut: timestamp 3:17 AM → timestamp 9:47 AM → timestamp 11:22 AM. Each paired with a single word.

ON SCREEN: "3:17 AM — Ransomware"

ON SCREEN: "9:47 AM — Activist investor"

ON SCREEN: "11:22 AM — Federal inquiry"

DIRECTION: Each timestamp holds for 2 seconds. Cut is hard, no transition. Sound: single low tone on each cut.

SCENE 4 [0:22–0:32] THE CURRENT REALITY

VISUAL: Navy background. Words appear one line at a time, left-aligned.

ON SCREEN: "Day 1: Who owns this?"

ON SCREEN: "Day 3: Outside counsel engaged."

ON SCREEN: "Day 7: First draft. Three teams disagree."

ON SCREEN: "Day 14: Board briefed."

ON SCREEN: "Day 30: Coordinated response."

DIRECTION: Each line fades in at 2-second intervals. No music. Quiet is the point — let the days accumulate.

SCENE 5 [0:32–0:40] THE REVEAL

VISUAL: Hard cut to teal. Single number appears center screen.

ON SCREEN: "12 minutes."

DIRECTION: TEAL (#2B8A6E) full-screen background. '12 minutes.' in large white Cormorant Garamond. Holds 4 seconds. Music enters — low, minimal, building.

SCENE 6 [0:40–0:52] THE CONTRAST

VISUAL: Split screen returns. Left: 30 DAYS in red. Right: 12 MIN in teal. Simple. Clean.

ON SCREEN: "30 days → 12 minutes"

ON SCREEN: "3,600× Execution Head Start"

ON SCREEN: "The response is ready before the trigger fires."

DIRECTION: Each line appears sequentially. Music builds. Text is white on navy. The tagline holds for 3 full seconds.

SCENE 7 [0:52–1:00] THE CLOSE

VISUAL: Navy. VM seal logo appears center. Single line below.

ON SCREEN: "Readiness OS · vaughnmartin.com"

DIRECTION: No voiceover. No call to action copy. The URL is the call to action. Hold 6 seconds. Fade to black.

VIDEO 2 — THE INVESTOR VIDEO

Title: "The Unclaimed Layer" · Length: 90 seconds · Format: Data-driven narration. No talking head.

Audience: Seed and Series A investors. Sent as a link before a first meeting.

Emotional arc: Market validation → Problem scale → Unclaimed position → First mover → The ask

SCENE 1 [0:00–0:10] MARKET VALIDATION

VISUAL: Navy. Gold number builds center screen.

ON SCREEN: "\$13,000,000,000"

ON SCREEN: "Microsoft's investment in enterprise AI infrastructure."

VOICEOVER: Microsoft has spent thirteen billion dollars proving enterprises will buy AI infrastructure.

DIRECTION: Number counts up from zero — fast. The comma-separated format lands harder than '\$13B'. Pause on the full number.

SCENE 2 [0:10–0:22] THE PROBLEM

VISUAL: Counter: 47,000 enterprises. Then two columns appear.

ON SCREEN: "47,000 enterprises with \$100M+ revenue"

ON SCREEN: "THEY HAVE: Azure OpenAI · Copilot · Teams · SharePoint"

ON SCREEN: "THEY DON'T HAVE: The operating model to use it."

VOICEOVER: Forty-seven thousand enterprises have the AI stack. None have the operating model layer above it — the layer that determines who responds, on what authority, in what sequence, when a strategic situation presents itself.

SCENE 3 [0:22–0:38] THE GAP

VISUAL: Timeline visualization. Left: 30 days of drift. Right: what activates in 12 minutes.

ON SCREEN: "When a situation presents itself:"

ON SCREEN: "Most organizations — 30 days to coordinate a response"

ON SCREEN: "Readiness OS — 12 minutes"

ON SCREEN: "3,600× Execution Head Start"

VOICEOVER: The average organization spends thirty days mobilizing before a single response action is taken. Readiness OS compresses that to twelve minutes. One hundred and eighty pre-staged protocols across nine strategic domains. Two hundred and thirty-one trigger patterns monitored continuously.

SCENE 4 [0:38–0:52] THE POSITION

VISUAL: Positioning map. Competitors clustered reactive/narrow. Top right empty. Readiness OS appears.

ON SCREEN: "\$0 — no vendor owns this layer"

ON SCREEN: "Readiness OS — first mover"

ON SCREEN: "\$7B+ TAM at Core pricing alone"

VOICEOVER: No vendor owns strategic response coordination. The category does not yet exist as a budget line. We name it. We own it.

SCENE 5 [0:52–1:10] THE TEAM AND ASK

VISUAL: Founder photo. Clean, single shot. Stats beneath.

ON SCREEN: "Martin Brunke — Founder"

ON SCREEN: "20+ years Fortune 500 operations · Stanford coaching staff"

ON SCREEN: "Seed Round — \$500,000 · July 2026"

ON SCREEN: "vaughnmartin.com/investor-landing"

VOICEOVER: VaughnMartin is raising a five hundred thousand dollar seed round. Founding Partner validation underway. Full investor materials at vaughnmartin.com.

VIDEO 3 — THE FOUNDER VIDEO

Title: "Why I Built This" · Length: 2 minutes · Format: You on camera. Single location. Minimal cuts.

Audience: Everyone who needs to decide whether to trust you — buyers, investors, partners, press.

Emotional arc: The origin → The observation → The frustration → The build → The name → The invitation

Production note: This video should feel like you are talking to one person, not performing for a camera. Single chair or standing at a desk. No teleprompter. Key points only. Your natural voice is the asset here.

SCENE 1 [0:00–0:20] THE ORIGIN

VISUAL: You on camera. Simple background. Navy or neutral wall. No graphics yet.

VOICEOVER: My father's name was Vaughn. Third grade, first day of football. He pulled me aside before we took the field and said four things. Prepare. Practice. Perform fearless. Never give up. I did not know it then, but those four words became the architecture of everything I have built since.

DIRECTION: Slow. Deliberate. This is the most personal moment in the video. Let it breathe. No rush to get to the product.

SCENE 2 [0:20–0:45] THE OBSERVATION

VISUAL: Still on camera. Slightly more energy.

VOICEOVER: I spent twenty years inside Fortune 500 companies — Ford, Lockheed Martin, Charles Schwab, Boyd Gaming. And I coached football at Stanford. In both worlds, I kept seeing the same thing. The organizations that won were not the ones with the best strategy. They were the ones that could execute when the moment arrived. When the situation presented itself, they were already ready. Everyone else spent the next thirty days figuring out who owned the call.

DIRECTION: The line 'who owned the call' is the pivot. Deliver it with weight.

SCENE 3 [0:45–1:10] THE FRUSTRATION

VISUAL: Direct. Personal. This should feel slightly uncomfortable — the authentic version of frustration.

VOICEOVER: I watched organizations pay consultants two hundred thousand dollars to build a response they could have had before the situation arrived. I watched operating models that were perfectly coherent on paper fall apart the moment real pressure arrived. And I kept asking the same question: why does nobody build this before it happens? Why is every response built from scratch, every time, with no institutional memory retained?

DIRECTION: Pause on 'no institutional memory retained.' That line will land with every operator who has ever lost a key person.

SCENE 4 [1:10–1:35] THE BUILD

VISUAL: Now you can show the platform briefly — 3-4 seconds of screen — then back to camera.

VOICEOVER: *So I built it. Readiness OS is the coordination infrastructure I kept wishing existed. One hundred and eighty situations, pre-staged across nine strategic domains. When the situation presents itself, the response activates in twelve minutes instead of thirty days. The authority chain is already settled. The team is already named. The systems are already connected. Nothing gets built. Everything gets activated.*

DIRECTION: *The phrase 'nothing gets built, everything gets activated' is the product in one line. Deliver it cleanly.*

SCENE 5 [1:35–1:50] THE NAME

VISUAL: Back to camera. Quieter now. This is the most personal beat.

VOICEOVER: *I named the company VaughnMartin. After my father. Because the framework he gave me on a football field in third grade — prepare, practice, perform fearless, never give up — is the same framework every enterprise needs when a strategic situation arrives. Preparation is not a phase. It is the product.*

DIRECTION: *Do not rush this. The name and the story behind it is what makes this company different from a software vendor. Let the audience sit with it.*

SCENE 6 [1:50–2:00] THE INVITATION

VISUAL: Direct to camera. Simple close.

VOICEOVER: *If your organization faces situations it is not pre-staged to respond to — and every organization does — I would like to talk to you. vaughnmartin.com.*

DIRECTION: *Natural. Not a pitch. An invitation. This is the most important sentence in the video — it should not sound like a CTA. It should sound like a genuine offer.*

VIDEO 4 — THE SITUATION VIDEO (REPEATABLE FORMAT)

Title: "[Situation]. What happens next." · **Length:** 60 seconds · **Format:** Split screen. Text only.

This is a repeatable format. Build one per strategic situation. Nine situations, nine videos, nine weeks of social content. Each video is a self-contained argument. The situation leads, the current gap is named, Readiness OS closes it.

Example below uses competitor pricing. Swap the situation and the specific gaps for each subsequent video.

SCENE 1 [0:00–0:05] THE MOMENT

VISUAL: Red timestamp. Single line beneath. Hard cut.

ON SCREEN: "9:47 AM"

ON SCREEN: "Competitor cuts price 20%. Your pipeline goes quiet."

DIRECTION: *No music. Just the timestamp and the situation. 5 seconds. Let it land.*

SCENE 2 [0:05–0:22] WITHOUT

VISUAL: Left half of screen. Red label. Items appear line by line.

ON SCREEN: "WITHOUT — What your governance model gives you:"

ON SCREEN: "→ Who is allowed to act (defined)"

ON SCREEN: "→ What they activate (not defined)"

ON SCREEN: "→ Emergency call. Three leaders. Three answers."

ON SCREEN: "→ Day 4: First approved message."

ON SCREEN: "→ Two deals already gone."

SCENE 3 [0:22–0:38] WITH READINESS OS

VISUAL: Right half activates. Teal label. Same timeline, different outcome.

ON SCREEN: "WITH READINESS OS — Pre-staged before 9:47 AM:"
ON SCREEN: "→ Commercial response protocol (activated)"
ON SCREEN: "→ Deal team notified simultaneously"
ON SCREEN: "→ Executive messaging already staged"
ON SCREEN: "→ Governance record created automatically"
ON SCREEN: "→ 12 minutes to full response"

SCENE 4 [0:38–0:52] THE LINE

VISUAL: Full screen. Navy. Gold text. Single statement.

ON SCREEN: "Your governance model tells you who is allowed to act."
ON SCREEN: "Readiness OS tells you what they activate when they do."

DIRECTION: Two lines. Eight seconds. No music under this. Silence is the emphasis.

SCENE 5 [0:52–1:00] CLOSE

ON SCREEN: "180 situations · 9 domains · 12 minutes"
ON SCREEN: "vaughnmartin.com/readiness-benchmark"

DIRECTION: Gold on navy. Benchmark URL specifically — lowest-friction entry point.

VIDEO 5 — THE FOUNDING PARTNER VIDEO

Title: "A Partnership, Not a Purchase" · Length: 45 seconds · Format: Text on screen. Specific. Scarce.

Audience: Prospective Founding Partners who have already engaged with the content. This is a conversion asset, not an awareness asset.

SCENE 1 [0:00–0:08] THE SCARCITY

ON SCREEN: "12 seats."
ON SCREEN: "2026 Founding Partner Cohort."
ON SCREEN: "3 of 12 remain."

DIRECTION: White on black. Monospace font for the numbers. Counter feel. No music yet.

SCENE 2 [0:08–0:22] WHAT YOU GET

ON SCREEN: "\$75,000 — 90-day validation partnership"
ON SCREEN: "100% credited to Year 1 subscription"
ON SCREEN: "Full platform access from Day 1"
ON SCREEN: "You shape the product roadmap"
ON SCREEN: "You set the pricing structure"

DIRECTION: Gold on navy. Each line appears with a half-second pause. Music enters — low, minimal.

SCENE 3 [0:22–0:35] THE CONTRAST

ON SCREEN: "McKinsey crisis retainer — \$75,000 to \$300,000"
ON SCREEN: "Knowledge leaves when the engagement ends"
ON SCREEN: "Next situation starts from zero"
ON SCREEN: ""
ON SCREEN: "Founding Partner — \$75,000"
ON SCREEN: "Credited 100%. Institutional memory stays."

ON SCREEN: "Every situation after this one: 12 minutes."

DIRECTION: Red for consulting. Gold for Founding Partner. The comparison is the argument.

SCENE 4 [0:35–0:45] THE CLOSE

ON SCREEN: "Same entry investment. Permanently different outcome."

ON SCREEN: "vaughnmartin.com/founding-partner-program"

DIRECTION: Hold 8 seconds. No voiceover. Let the URL be the only thing on screen.

VIDEO 6 — THE LINKEDIN SHORT

Title: "The Mobilization Tax — 30 seconds" · *Length: 30 seconds* · *Format: Text only. Square format (1080×1080).*
No sound required.

Note: LinkedIn auto-plays video without sound. Every beat must read as text only, no voiceover dependency.

SCENE 1 [0:00–0:06] HIT THE NUMBER

ON SCREEN: "\$25M – \$34M"

ON SCREEN: "The annual Mobilization Tax most organizations don't know they're paying."

DIRECTION: Full screen. \$25M-\$34M in large red. Sub-label in white. 6 seconds.

SCENE 2 [0:06–0:14] THE MATH

ON SCREEN: "15 situations × \$1.7M = \$25.5M"

ON SCREEN: "20 situations × \$1.7M = \$34M"

ON SCREEN: "Not the cost of the situations."

ON SCREEN: "The cost of figuring out who owns the call."

DIRECTION: Each line appears sequentially. Math first. Distinction second.

SCENE 3 [0:14–0:22] THE 12 PROBLEMS

ON SCREEN: "Detection. Recognition. Authority. Team assembly."

ON SCREEN: "Budget. External resources. Sequencing. Systems."

ON SCREEN: "Communication. Compliance. Governance. Learning."

ON SCREEN: "12 problems. Rebuilt from scratch. Every time."

DIRECTION: Three lines of gaps — then the kicker. Fast but readable.

SCENE 4 [0:22–0:30] THE CLOSE

ON SCREEN: "12 minutes instead of 30 days."

ON SCREEN: "Readiness OS · vaughnmartin.com"

DIRECTION: Teal on navy. Hold 6 seconds. URL on screen. Clean out.

PRODUCTION GUIDANCE — ALL SIX VIDEOS

Priority order for production

1. Founder Video — highest trust-building impact. Produces the asset no competitor can copy.
2. Customer Video — homepage hero. Most viewed. Drives Readiness Benchmark completions.
3. LinkedIn Short — fastest to produce. Immediate social use.

4. Situation Video — build one, test, then produce all nine over time.
5. Founding Partner Video — conversion asset. Build before next investor conversation.
6. Investor Video — needed before seed round closes. Can be built from pitch deck assets.

What you need to produce each

Videos 1, 2, 4, 5, 6 — Text-on-screen format. Can be produced in ScreenFlow, Adobe Premiere, Canva Pro, or Descript. No studio required. Brand colors, Cormorant Garamond font, and the scripts above.

Video 3 — You on camera. Phone camera on a tripod works if the lighting is right. Single window light source, navy or neutral background. Lav mic or AirPods. The goal is natural, not produced.

Distribution plan per video

Customer Video → vaughnmartin.com hero, LinkedIn native video post, email outreach embed

Investor Video → investor@vaughnmartin.com outreach, Round Funded data room, [/investor-landing](#) page

Founder Video → [/founder-story](#) page, LinkedIn profile featured section, personal email signature

Situation Videos → LinkedIn native video (one per week), embed on [/the-gap](#) page

Founding Partner Video → [/founding-partner-program](#) page, Founding Partner outreach DMs

LinkedIn Short → LinkedIn native video, repurposed as Instagram Reel if applicable
